
Technical Specification

200 Series Overt Body Armour

Introduction

The 200 series range of Body Armour has been designed to suit both Overt & Covert missions. The 200 ballistic insert can be easily removed and placed in various mission specific covers. This vest is ideal for users wanting to wear their Overt Vest in a Covert situation.

- Protection to NIJ levels II, or IIIA, with multi-hit capability
- Front, back, side and shoulder protection
- Removable machine washable cover
- Simple Velcro closure
- Waterproof and UV proof ballistic panels
- Outer cover in a choice of fabrics
- Full freedom of movement
- Adjustable shoulders
- Pockets front and back for additional Hard Armour Inserts

It is available in Small, Medium, Large and Extra Large. Extra sizes are available on request.

The vest is donned by being passed over the head and the side straps fastening around the waist using hook & hoop tape.

Weight

The weight of the 200 Series is dependent on the specified threat level and the size.

Durability

The 200 Series vests have been specifically designed to withstand the rigors of Military and Tactical service life. The selection of materials, ergonomic design and the structure of the garment ensure longevity. Many thousands of these vests are in service and have proven extremely durable.

Design

The vest is designed to provide the wearer with comfortable free movement for all roles including standing, sitting, lying & driving. Outer covers can be made compatible with any camouflage pattern uniform available.

Maintainability

The outer cover is machine (or hand) washable using mild detergent for ease of maintenance. The ballistic inserts can be wiped down with water & a mild detergent. Do not use harsh commercial cleaning products on any part of the vest.

Accessories/ Options

The 200 Series is available with the following options:

- "Quick Draw" internal Groin Protector
- Collar Protection (removable)
- Removable Police identification labels
- Extra trauma protection
- Hard Armour Inserts Level III, IV or NIJ Special Type (User Defined)

Warranty

RBR Armour Systems Pty Ltd offers a one (1) year warranty on all outer covers and armour against faults in materials and workmanship, excluding owner abuse.

Quality

RBR Armour Systems Pty Ltd operate a Quality Assurance system in accordance with AS/NZS ISO 9001:2000.

The company is proud of the quality of workmanship and quality of its products.
